

Neutek International HK Ltd.

Waterproof Breathable Micropore Membrane

Discover the magic now!

Waterproof Breathable Micropore Membrane

Highlight:

- IP58 Standard
- 60 minutes with no seepage of water at 0.1Mpa with breathable performance of 1500ml/min/cm²
- Regular straight perforation with high ventilation volume
- Pore aperture and pore density can be precisely controlled
- Products of different specifications can be made in accordance with different dustproof and waterproof requirements

Waterproof Breathable Micropore Membrane

Applications:

- Mobile phones
- Headsets
- Notebooks and tablets
- Walkie-talkies
- Microphones
- Other electronic products

Waterproof Breathable Micropore Membrane

Benefits:

- Excellent sound transmission
- Excellent waterproof performance
- Straight perforations pores with high ventilation volume
- Balance the air pressure between two sides of the membrane instantly
- Strength, resistance to bending
- Price

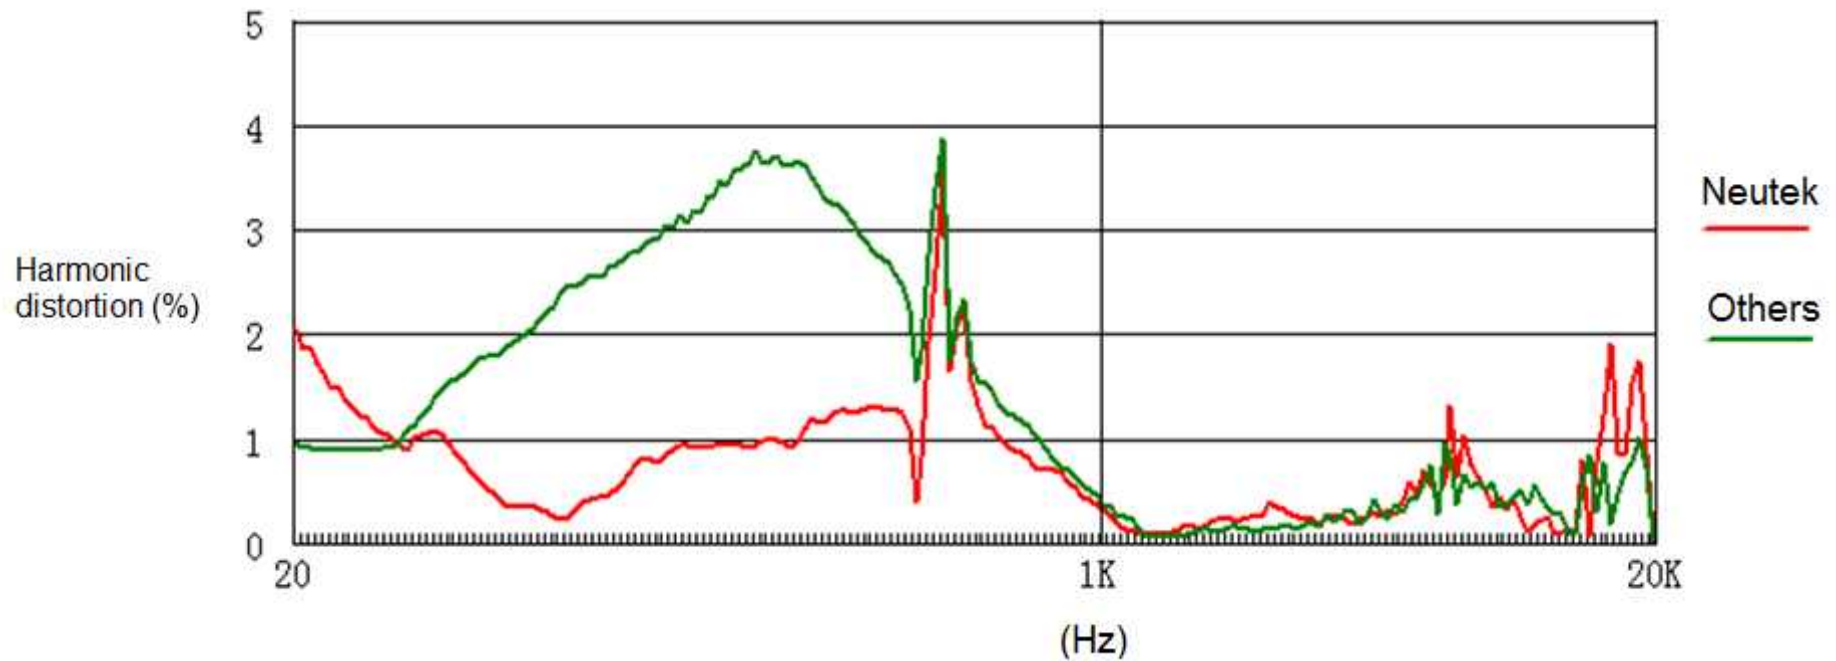

Waterproof Breathable Micropore Membrane

What's the difference:

	Neutek	Others
Waterproof performance	60 minutes with no seepage of water at 0.1Mpa	Instantaneous water seeping at 0.1Mpa
Breathable performance	1500ml/min/cm ²	900ml/min/cm ²

Waterproof Breathable Micropore Membrane

Harmonic distortion

Waterproof Breathable Micropore Membrane

- Neutek use PET material, which is strength, resistance to bending and difficult to damage. It makes the installation process simple and cost effective.
- Other waterproof breathable membrane materials are made by PTFE which is weak in strength. Installation process of those materials are complicated since it can be damaged easily.
- We are customer oriented... quality, service and price.

Waterproof Breathable Micropore Membrane

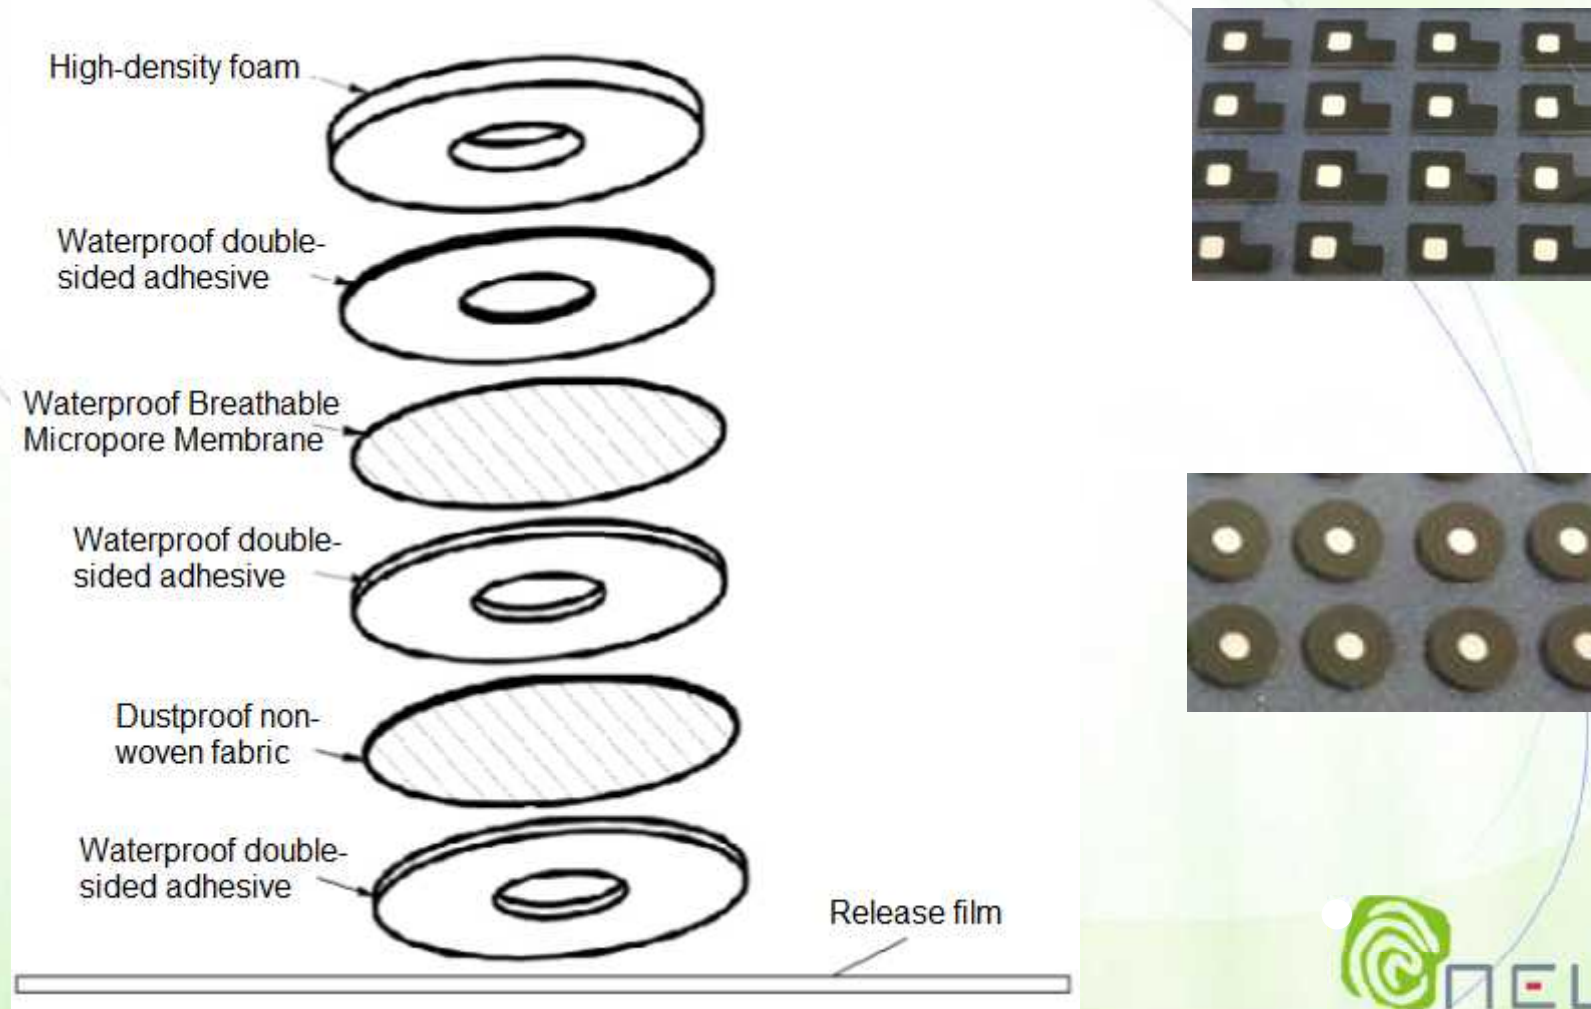

Durability and reliability:

All Neutek products are undergone various quality and performance tests before leaving the factory.

- Low temperature test
- High temperature test
- Temperature fluctuation test
- Temperature cycle test
- Damp heat test
- Salt spray test
- Dustproof test

Waterproof Breathable Micropore Membrane

Product structure:

Waterproof Breathable Micropore Membrane

Neutek tailor-made each
Waterproof Breathable Micropore Membrane product
for the specific needs of each customer
